

Holdeen vending machines MG1... the original!!!

It is no change that Holdeen is the most demanded vending machine.

The great experience and the solid construction are a guarantee for a long-time exploitation.

The progress, of course, is not standing at a certain point and the vending machines are equipped according to the most modern technologies:

- Electronic monetary system NRI G-13
- Counter of the turnover
- Digital indication of the coins put in
- Total construction of the machine of stainless steel
- Modern lighted display of the products
- 8 Compartments heated up to 90 degrees Celsius
- Digital temperature regulation!! (The keyed in temperature is automatically reached)
- Button for cleaning (easy cleaning)
- Locking of the coin-section with a master key
